

Grit Bins

Product Info:

We manufacture the largest range of Grit Bins in the UK, sizes start from 100 litres through to 400 litres, with a range of options to suit your individual needs.

Recognisable by their unique shape, designed to allow for the straightforward removal of grit whilst in position at the roadside.

Our grit bins are unobtrusive and take up minimal space on a footpath, walkway or carpark.

All our grit bins are stackable for easy storage and transportation.

A recycled or part recycled options are also available.
