

# Tree Hugger™ Biodegradable Tree Shelters

TREE HUGGER

## Our Tree Shelters are:

- No plastics or derivatives
- Made in the UK
- 5-year life span
- Promotes healthy growth
- Allows lateral spread
- Improves sapling survival rate
- 2 heights (0.6m and 1.2m)
- 5 diameters (70, 80, 90, 100, 110mm)

Tree Hugger is crafted from a premium blend of organic loomstate cotton and eco-friendly pine rosin, ensuring a product that's as gentle on the planet as it is effective. Sustainably sourced and completely free of plastics or harmful derivatives, it's designed with the environment in mind.

Our organic loomstate cotton is carefully selected to meet the highest standards, certified by Global Organic Textile Standards 5.0 (GOTS) or the Better Cotton Initiative (BCI).

The pine rosin coating comes from responsibly managed forests, certified by the Swedish FSC (Forest Stewardship Council) and ISCC (International Sustainability and Carbon Certification), ensuring ethical production every step of the way.

# Tree Hugger™ Biodegradable Tree Shelters

TREE HUGGER

## Benefits of our tree shelters

- Woven structure provides radial and axial strength for robust tree support
- Loomstate material avoids chemicals and significantly reduces water usage
- Advanced coating reduces weight, cutting transportation costs and emissions
- Uniform fiber matrix wicks moisture, accelerating biodegradability
- Micro windows created by the weave allow excellent light transmission for photosynthesis
- Protective microclimate with optimal airflow prevents frost and heat damage, encouraging tree growth
- Made from plant-based biodegradable fibers within a sustainable and renewable supply chain
- Perforated seam allows saplings to expand naturally without stifling growth
- No collection required—biodegrades over time, returning to the earth when its job is done

## Embracing Sustainability

At Tree Hugger, our mission is to combat plastic pollution and cut CO2 emissions from manufacturing and transportation. Crafted from natural materials and produced using low-impact processes, our tree shelters address long-term sustainability challenges throughout the supply chain and in the field. We're committed to ensuring our entire business operations align with these sustainability principles, making a positive impact at every level.
